2022

ZINC

Industry Chain Annual Report

Table of Contents:

Chapter 1. Zinc Price Review and Outlook

1. China Zinc Price Performance in 2022
2. China Zinc Price Outlook for 2023

Chapter 2. Zinc Concentrate Market Analysis

1. Global Zinc Concentrate Market
 - 1.1 Global Zinc Concentrate Reserves
 - 1.2 Global Zinc Concentrate Production
 - 1.3 Global Zinc Mine Production Reduction and Shutdown in 2022
 - 1.4 Global Zinc Mine New Capacity in 2022
 - 1.5 2016-2023E Global Zinc Mine Supply and Demand Balance
2. China Zinc Concentrate Market
 - 2.1 China Zinc Concentrate Reserves
 - 2.2 China Zinc Concentrate Production
 - 2.3 2021-2022 China Zinc Concentrate TC
 - 2.4 China Zinc Concentrate Imports
 - 2.5 China Zinc Concentrate Self-sufficiency
 - 2.6 China Domestic Zinc Mine New Capacity in 2022
 - 2.7 2016-2023E China Zinc Mine Supply and Demand Balance

Chapter 3. China Refined Zinc Market Analysis

1. China Refined Zinc Production
 - 1.1 China Refined Zinc Output
 - 1.2 China Zinc Smelters Operating
 - 1.3 China Zinc Smelters Maintenance
 - 1.4 China Zinc Smelters New Capacity
2. China Copper Concentrate Import and Export
 - 2.1 China Refined Zinc Import Volume
 - 2.2 Distribution of China Refined Zinc Import
 - 2.3 China Refined Zinc Import Profitability
3. China Refined Zinc Inventory
4. 2016-2023E China Refined Zinc Supply and Demand Balance

Chapter 4. Analysis of China Zinc Downstream Market

1. China Galvanized Plate/Coil Market
 - 1.1 China Galvanized Plate/Coil Enterprises Production
 - 1.2 China Galvanized Plate/Coil Enterprises Inventory
 - 1.3 China Galvanized Plate/Coil Enterprises Refined Zinc Consumption
 - 1.4 China Galvanized Plate/Coil Enterprises New Capacity
 - 1.5 China Galvanized Plate/Coil Imports and Exports
2. China Galvanized Pipe Market
 - 2.1 China Galvanized Pipe Enterprises Production
 - 2.2 China Galvanized Pipe Enterprises Inventory
 - 2.3 China Galvanized Pipe Enterprises Refined Zinc Consumption
 - 2.4 China Galvanized Pipe Enterprises New Capacity
 - 2.5 China Galvanized Pipe Imports and Exports
3. China Die-casting Zinc Alloy Market
 - 3.1 China Die-casting Zinc Alloy Enterprises Production
 - 3.2 China Die-casting Zinc Alloy Enterprises Inventory
 - 3.3 China Die-casting Zinc Alloy Market Outlook for 2023
4. China Zinc Oxide Market
 - 4.1 China Zinc Oxide Enterprises Production
 - 4.2 China Zinc Oxide Market Outlook for 2023
5. China Zinc Powder Market
 - 5.1 China Zinc Powder Enterprises Production
 - 5.2 China Zinc Powder Market Outlook for 2023

Chapter 5. China Zinc End-Users Demand Analysis

1. Real Estate Market
2. Automobile Market
3. Home Appliance Market
4. Infrastructure Market

Data Advantage:

Mysteel zinc industry database contains production data of mines, smelters, galvanizing plants, alloy factories, zinc oxide plants, and zinc powder factories, zinc ingot social inventory, in-plant inventory, import & export profit and loss, supply and demand balance. The production data covers the whole industry chain and includes weekly and monthly data.

Refined zinc production data includes capacity, output, capacity utilization, raw material inventory days, refined zinc in-smelter inventory, and maintenance. The weekly data sample of smelters surveyed 45 zinc smelters in China by province and enterprise scale. In the monthly data, 53 zinc smelters in China were surveyed by province and enterprise scale.

Zinc concentrate production data includes capacity, output, raw material inventory, finished product inventory, profit, maintenance, and other dimensions. In total 130 domestic zinc concentrate enterprises were surveyed by province and enterprise scale, and the sample coverage accounted for 65% of the national zinc concentrate output.

Galvanizing plant survey includes 130 producers. Zinc alloy factory weekly survey covers 30 enterprises and monthly survey includes 116 die-casting zinc alloy enterprises with sample coverage of 92% of the domestic capacity. The survey shows inventory, output, capacity, and capacity utilization data.

The weekly survey of zinc oxide includes a total of 52 zinc oxide production enterprises, with a coverage rate of 33%, showing the weekly capacity utilization, output, capacity, and other information on zinc oxide varieties.

The monthly survey of zinc powder includes a total of 25 zinc powder production enterprises, with a coverage rate of 60%, showing the monthly capacity utilization rate, output, capacity, and other information on zinc powder varieties.

The social inventory data of refined zinc include the warehouse inventory in 6 places across the country, and the sample coverage accounts for 93% of the national refined zinc inventory. The survey data includes storage capacity, inventory, warehouse delivery volume, and warehouse entry volume. The data includes more than 5 years of data from 2018-2022.

About Mysteel

Shanghai Ganglian E-Commerce Holdings Co., Ltd. (Mysteel, SZSE 300226) is one of the world's leading bulk commodities service providers. Founded in April 2000, Mysteel has now set up branch offices and subsidiaries in Singapore, London, Hongkong, Melbourne, and over 30 cities in China, with over 3,000 employees.

Starting from providing market intelligence service on steel and iron ore products, Mysteel has expanded the service across all bulk commodities including ferrous products, non-ferrous metals, oil and gas, energy & petrochemicals, agricultural products, and construction materials. Services include:

- Electronic/web-based industrial and market data service
- Commodity pricing indices and benchmark service
- Upstream and downstream industry research
- Commodity conference and training service
- Research and consultancy
- E-commerce trading platform (Banksteel.com)
- Smart warehousing and logistics platform

About Mymetal

Mymetal.net is a professional nonferrous affiliate of Shanghai Ganglian E-Commerce Holdings Co., Ltd (Shanghai Ganglian). Mymetal.net is a website specializing in nonferrous metals information, nonferrous metals research, nonferrous E-Commerce and nonferrous community, messaging, and network technology services. We provide a professional interactive platform for nonferrous information and one-stop E-commerce services as well.

Founded in 2009, Mymetal is now with over 200 employees mainly working from Shanghai, Nanchang, and Beijing offices, and in 12 years, it has advanced to a department with a comprehensive and in-depth non-ferrous metals information service provider in China.

Mymetal covers base metals such as copper, aluminum, lead, zinc, nickel, and tin, as well as rare earth, new energy, precious metals, minor metals, etc. providing fundamental data as well as value-added services such as regular market analysis/research, field trips, conferences, and consultancy.
